

Pave your way to business success in Mexico

Establish and grow your operation with Kreston FLS

2026

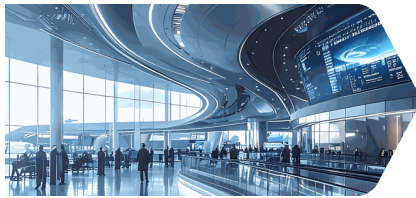

Part 1

The service

“

Kreston FLS is your strategic partner, providing the knowledge and guidance necessary to establish and grow your business efficiently and in compliance, ensuring a successful start and operation in the country.

”

CONNECTIVITY AND
INFRASTRUCTURE

Mexico is a vibrant market full of opportunities. However, its legal, tax, and regulatory environment can be complex for new investors. Kreston FLS is your strategic partner, providing the knowledge and guidance necessary to establish and grow your business efficiently and in compliance, ensuring a successful start and operation in the country.

The Mexican Moment: four routes to market entry

Kreston FLS specialises in establishing operations in Mexico. This is the Mexican Moment to leverage the trend of setting up in the country for trade with the United States and Canada. We design tailored solutions for any of these stages:

Full immersion

Having offices, facilities, employees and all the infrastructure required to operate permanently in the country.

Market testing

Establishing a digital presence to measure demand and validate the business model before committing physical investment.

Local distributors

Operating without a physical presence, with product inventory placed through local channels only.

Innovative strategies

Acquiring companies, forming joint ventures or becoming a partner in existing businesses, among other routes our financial consulting experience can propose to you.

Scope of service

- ◆ Advisory and legal structuring for the incorporation of your company (public limited company, branch, etc.).
- ◆ Comprehensive management of permits, licenses, and registrations with federal, state, and municipal authorities.
- ◆ Registration and compliance with the Tax Administration Service (SAT) and the Mexican Social Security Institute (IMSS).
- ◆ Guidance on compliance with labor and immigration regulations for local and foreign personnel.
- ◆ Market viability analysis and entry strategies.
- ◆ "Turnkey" Solutions: company incorporation, bank account opening, and tax domicile.
- ◆ Advice on identifying hidden costs and optimizing resources.

Part 2

Who is Kreston?

“

With more than 155 member firms in over 110 countries and a team of more than 30,000 professionals worldwide, the network connects ambitious people and businesses wherever they operate.

”

TECHNOLOGY AND AUTOMATION

Kreston's three pillars

Sector Expertise

We bring specialized knowledge across multiple sectors, helping businesses solve complex financial challenges. Often, in large business transactions, business owners and managers are making decisions for the first time in real-time. Our team already understands the specific financial pressures of different sectors, enabling us to offer targeted advice that truly makes a difference for your organization.

Tailored Strategies

We don't use off-the-shelf solutions. Instead, we develop strategies specifically designed for your business objectives. By carefully analyzing your company's needs, market position, and growth potential, we create personalized recommendations that perfectly align with your goals.

Global Network

Our international team combines worldwide connections with local market insights. We provide comprehensive financial advisory services that transcend geographical barriers, helping your business navigate complex cross-border financial operations.

Part 3

Why choose Kreston FLS?

“

Choosing a strategic partner for your operations in Mexico is a critical decision.

”

Choosing a strategic partner for your operations in Mexico is a critical decision. At Kreston FLS, we understand market complexities and the need for advice that combines global vision with deep local expertise.

For business owners and CEOs

We offer comprehensive "Turnkey" solutions that simplify your entry and operation in Mexico, allowing you to focus on strategy and growth, not bureaucracy. Our proactive approach and the assignment of an expert partner per client ensure your needs are met with maximum efficiency and discretion.

For accounting, tax, and finance professionals

We distinguish ourselves by accuracy, regulatory compliance, and the ability to adapt to various international accounting and tax frameworks (NIF, USGAAP, IFRS). With cutting-edge technology and cloud processing, we guarantee data security, ad hoc reporting, and operational resilience, vital for modern financial management.

For governance and firm selection responsables

Kreston FLS is part of a global network recognized for its quality and rigorous standards. As members of the Forum of Firms, we adhere to International Quality Control Standards and the IESBA Code of Ethics, offering audits and advice with the highest credibility. Our 24/7 global responsiveness and experience in diverse sectors ensure seamless service for local and international operations. At Kreston FLS, we don't just know the rules; we build trusting relationships that drive your success.

Sectors served

We serve a wide range of sectors, including but not limited to:

Agricultural and livestock	Industrial and general services	Technology and digital platforms
Telecommunications	Real estate and construction	Retail
Education and educational institutions	Science and health	Leisure and hospitality
Charity and non-Profit		
Foreign investment companies and national companies with a focus on foreign trade.		

“

At Kreston FLS, we don't just know the rules; we build trusting relationships that drive your success.
